

Interference search LDR 8/12/08

EAST Search History

| Ref # | Hits | Search Query | DBs | Default Operator | Plurals | Time Stamp |
|-------|------|---|----------|------------------|---------|---------------------|
| L1 | 0 | measuring near3 polygonal planar surfaces and device and range finder same mounted near3 leg support same frame same central point same orient the range finder and means near3 angular tracking and passing through central point same targeted point same spatial reference frame same centered same central point and spherical coordinates and triggering and digital processing and series of measuring points and modelling process and geometric digital model.clm. | US-PGPUB | NEAR | ON | 2008/08/12 16:56 |

| | | | | | | |
|----|---|--|----------|------|----|---------------------|
| L2 | 0 | measuring near3 polygonal planar surfaces and device and range finder same mounted near3 leg support same frame same central point same orient the range finder and means near3 angular tracking and passing through central point same targeted point same spatial reference frame same centered same central point and spherical coordinates and triggering and digital processing and series of measuring points and modelling process and geometric digital. clm. | US-PGPUB | NEAR | ON | 2008/08/12 16:57 |
| L3 | 0 | measuring near3 polygonal planar surfaces and device and range finder same mounted near3 leg support same frame same central point same orient the range finder and means near3 angular tracking and passing through central point same targeted point | US-PGPUB | NEAR | ON | 2008/08/12 16:57 |

| | | | | | | |
|----|---|---|----------|------|----|---------------------|
| | | same spatial reference frame same centered same central point and spherical coordinates and triggering and digital processing and series of measuring points and modelling process and geometric.clm. | | | | |
| L4 | 0 | measuring near3 polygonal planar surfaces and device and range finder same mounted near3 leg support same frame same central point same orient the range finder and means near3 angular tracking and passing through central point same targeted point same spatial reference frame same centered same central point and spherical coordinates and triggering and digital processing and series of measuring points and modelling process.clm. | US-PGPUB | NEAR | ON | 2008/08/12 16:57 |

| | | | | | | |
|----|---|---|----------|------|----|---------------------|
| L5 | 0 | measuring near3 polygonal planar surfaces and device and range finder same mounted near3 leg support same frame same central point same orient the range finder and means near3 angular tracking and passing through central point same targeted point same spatial reference frame same centered same central point and spherical coordinates and triggering and digital processing and series of measuring points and modelling . clm. | US-PGPUB | NEAR | ON | 2008/08/12 16:57 |
| L6 | 0 | measuring near3 polygonal planar surfaces and device and range finder same mounted near3 leg support same frame same central point same orient the range finder and means near3 angular tracking and passing through central point same targeted point same spatial reference frame | US-PGPUB | NEAR | ON | 2008/08/12 16:57 |

| | | | | | | |
|----|---|---|----------|------|----|---------------------|
| | | same centered same central point and spherical coordinates and triggering and digital processing and series of measuring points. .clm. | | | | |
| L7 | 0 | measuring near3 polygonal planar surfaces and device and range finder same mounted near3 leg support same frame same central point same orient the range finder and means near3 angular tracking and passing through central point same targeted point same spatial reference frame same centered same central point and spherical coordinates and triggering and digital processing and series of measuring .clm. | US-PGPUB | NEAR | ON | 2008/08/12 16:57 |

| | | | | | | |
|----|---|--|----------|------|----|---------------------|
| L8 | 0 | measuring near3 polygonal planar surfaces and device and range finder same mounted near3 leg support same frame same central point same orient the range finder and means near3 angular tracking and passing through central point same targeted point same spatial reference frame same centered same central point and spherical coordinates and triggering and digital processing and series.clm. | US-PGPUB | NEAR | ON | 2008/08/12 16:57 |
| L9 | 0 | measuring near3 polygonal planar surfaces and device and range finder same mounted near3 leg support same frame same central point same orient the range finder and means near3 angular tracking and passing through central point same targeted point same spatial reference frame same centered same central point and | US-PGPUB | NEAR | ON | 2008/08/12 16:58 |

| | | | | | | |
|-----|---|--|----------|------|----|------------------|
| | | spherical coordinates and triggering and digital process. clm. | | | | |
| L10 | 0 | measuring near3 polygonal planar surfaces and device and range finder same mounted near3 leg support same frame same central point same orient the range finder and means near3 angular tracking and passing through central point same targeted point same spatial reference frame same centered same central point and spherical coordinates and triggering and digital.clm. | US-PGPUB | NEAR | ON | 2008/08/12 16:58 |
| L11 | 0 | measuring near3 polygonal planar surfaces and device and range finder same mounted near3 leg support same frame same central point same orient the range finder and means near3 angular tracking and passing through central point same targeted point | US-PGPUB | NEAR | ON | 2008/08/12 16:58 |

| | | | | | | |
|-----|---|--|----------|------|----|---------------------|
| | | same spatial reference frame same centered same central point and spherical coordinates and triggering.clm. | | | | |
| L12 | 0 | measuring near3 polygonal planar surfaces and device and range finder same mounted near3 leg support same frame same central point same orient the range finder and means near3 angular tracking and passing through central point same targeted point same spatial reference frame same centered same central point and spherical coordinates.clm. | US-PGPUB | NEAR | ON | 2008/08/12 16:58 |
